Questionnaire
for Evaluation of the
Benefits and Outputs of
the Technical Workshop
(Thesaloniki, October
2014)

www.achelous.eu

Project e-mail: achelous@comune.vicenza.it

The following questionnaire, prepared by the City of Skopje in cooperation with Municipality of Vicenza, is designed in term to measure the impact of the workshop hold in Thessaloniki (October 2014).

The outputs of lessons learned and knowledge sharing during this activity within ACHELOUS project will help us to evaluate the reflection of the workshop on the organization and planning of exercises, that followed in the late stage of the project (March-October 2015), as well as on development of LRDs.

The questionnaire is addressed to be answered by the attendants who participated on the workshop.

1. What are the outcomes from the INTERNATIONAL training in Thessaloniki (underline one or multiple responses)?

a. ACHELOUS partners are aware about problems and obstacles that they will face on the ground. Mainly this is addressed on communication and coordination among stakeholders at local level.

b. Obtained knowledge about local and international case studies about flood risk management (Greece and Italy at local level) and international deployment of emergency forces as an international experience in disaster risk management (Haiti).

c. Each party presented its own problem regarding floods and other natural threats and disasters, as well as (country and) local specific issues related to flood protection and strategies.

d. Other. Please note.

*If you underline response **b**), please explain what did make you interesting and what was useful for you from session addressed to the European Civil Protection Mechanism.*

2. As partner, did you get some useful advices in the workshop from which you have undertaken some activities in the LRDs and please not what activities?

Dear interviewee,

When you will fulfill the questionnaire please send it back to Rade Rajkovcevski (City of Skopje) and Luca Fabris (Municipality of Vicenza) at: raderaj@yahoo.com; lfabris@comune.vicenza.it

Also, do not hesitate to contact Mr.Rajkovcevski for any kind of support and help.

Cordially,

Rade and Luca

Questionnaire
for Evaluation of the
Benefit and Contribution
of the Local Risk District's
representatives from
the field exercise hold
within ACHELOUS project

www.achelous.eu

Project e-mail: achelous@comune.vicenza.it

The following questionnaire, prepared by the City of Skopje in cooperation with Municipality of Vicenza, is designed in term to measure the impact of ACHELOUS project and its local partners on the members of the LRDs, established in the early stages of the project.

By answering to these three questions, it makes us able to analyse the state of the art of LRD activity in the local community, to recognize the (dynamic) needs of LRD partners and to predict the future activities needed for creating and redesign of the local strategies in term of building holistic approach in floods risk management at local level.

The tool can be also used as a matrix, to be filled in regularly (twice a year, 3 times a year) and verify how LRD activities are proceeding and developing in time, if changes occurred and impacts occurred.

1. How LRD representatives recognize their role and contribution in local exercise and real-time situation after LRD was established? How their participation in this local network is beneficial?

2. What was the feedback from LRD representatives following the exercise implementation?

3. What they expect from further activities after LRD was established and exercise was implemented?

Dear interviewee,

Please send fulfilled questionnaire to our (ACHELOUS) partner at e-mail:

valentina.georgievska@skopje.gov.mk or hard-copy of the same at the following address:

City of Skopje
